## DETAILED ACTION

### ***Allowable Subject Matter***

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art discloses a power supply wiring device comprising a first case mounted to a sliding structure, a second case mounted to a fixed structure and a harness holding member, as shown by Buescher US Patent 6176715, but does not disclose or suggest that the second case receives the harness holding member and which allows the harness holding member to swing freely in and out of the second case. Furthermore there is no evidence in the prior art suggesting that having a holding member interacting with the second case as in the claimed invention would have been obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ivan H. Carpio whose telephone number is 571-272-8396. The examiner can normally be reached on M-R 6:00am - 4:30pm.
